

iOS App Store Submission Checklist

Pre-Submission Requirements

App Configuration

- ☐ Bundle ID: `com.finalevolutiongroup.lab`
- ☐ App Version: 1.0.0
- ☐ Build Number: incremented for each submission
- ☐ Minimum iOS: 16.0
- ☐ Supported devices: iPhone only (or Universal)
- ☐ Supported orientations: Portrait + Landscape

Code Signing

- ☐ Apple Developer Program membership active (\$99/year)
- ☐ Distribution certificate created
- ☐ App Store provisioning profile created
- ☐ Entitlements configured:
 - ☐ HealthKit
 - ☐ Multicast Networking
 - ☐ Push Notifications

Privacy

- ☐ Camera usage description in Info.plist
- ☐ Motion & Fitness usage description
- ☐ HealthKit usage description
- ☐ Local Network usage description
- ☐ Microphone usage description (if used)
- ☐ App Privacy Nutrition Labels completed in App Store Connect

App Transport Security

- ☐ ATS exceptions for `finalevolutiongroup.com` domains
 - ☐ All production endpoints use HTTPS
 - ☐ WebSocket connections use WSS
-

App Store Connect Setup

App Information

- ☐ App name: "Final Evolution Lab"
- ☐ Subtitle: "Athletic Training Through Gaming"
- ☐ Category: Health & Fitness (primary), Games - Sports (secondary)
- ☐ Content rating: 4+ (no objectionable content)

Description

Final Evolution Lab transforms your phone into an elite athletic training platform.

Train with 16 competitive game modes powered by real motion-captured animations from professional athletes. From basketball to karate, soccer to boxing – every sport features real physics and real-time 3D graphics streamed to your device.

FEATURES:

- 16 Game Modes – Basketball, Karate, Soccer, Boxing, Tennis, and more
- 23 Motion-Captured Exercises – AI-powered form tracking
- Real-Time 3D Streaming – Console-quality UE5 graphics on your phone
- Competitive Multiplayer – Challenge friends in head-to-head matches
- Performance Analytics – Track your progress with detailed stats
- HealthKit Integration – Sync workouts to Apple Health

Powered by Unreal Engine 5 Pixel Streaming technology for sub-30ms latency gaming.

- [] 6.7" (iPhone 15 Pro Max): 1290 x 2796 — min 3, max 10
- [] 6.5" (iPhone 14 Plus): 1284 x 2778 — min 3, max 10
- [] 5.5" (iPhone 8 Plus): 1242 x 2208 — min 3, max 10
- [] iPad Pro 12.9": 2048 x 2732 (if supporting iPad)

Screenshots Content Plan

1. Hero shot — game mode selection screen
2. Basketball H2H gameplay
3. Exercise demo with 3D model
4. Karate combat mode
5. Performance analytics dashboard
6. Multiplayer matchmaking

App Preview Videos (Optional)

- [] 30-second gameplay video showing streaming quality
 - [] Format: H.264, 30fps, 1080p or higher
-

Technical Requirements

Build & Archive

```
# On macOS with Xcode 15+
cd ios/FinalEvolutionLab

# Clean and archive
xcodebuild clean archive \
  -workspace FinalEvolutionLab.xcworkspace \
  -scheme FinalEvolutionLab \
  -archivePath build/FinalEvolutionLab.xcarchive \
  -destination 'generic/platform=iOS'

# Export IPA for App Store
xcodebuild -exportArchive \
  -archivePath build/FinalEvolutionLab.xcarchive \
  -exportPath build/AppStore \
  -exportOptionsPlist ExportOptions_AppStore.plist
```

Upload to App Store Connect

```
# Using xcrun
xcrun altool --upload-app \
  -f build/AppStore/FinalEvolutionLab.ipa \
  -t ios \
  -u "apple-id@example.com" \
  -p "app-specific-password"

# Or use Transporter app
```

Review Preparation

Demo Account

- [] Provide test account credentials if app requires login
- [] Ensure streaming server is running during review period
- [] Note: Apple reviewers test on WiFi in Cupertino, CA

Review Notes

This app streams real-time 3D game content from cloud GPU servers.
Requires internet connection (WiFi or 5G recommended).
Streaming server: <wss://stream.finalevolutiongroup.com>
No login required for basic features.

Common Rejection Reasons to Avoid

- [] App must function without crashing
- [] All links must work (App Store, privacy policy, terms)
- [] Placeholder content must be removed
- [] In-app purchases must use StoreKit (if applicable)

- [] HealthKit must only access relevant data
 - [] Camera/microphone permissions must be justified
-

Post-Submission

- [] Monitor App Store Connect for review status
- [] Typical review time: 24-48 hours
- [] Prepare for potential reviewer questions
- [] Have streaming infrastructure running 24/7 during review
- [] Set up phased release (10% → 25% → 50% → 100%)
